

Dear members,

In many ways January was a quiet one, but the hall was pretty busy with regular users for Yoga and the new martial arts group. One of our exciting new hall users is Gato Raton, who have been rehearsing their cumbia dance music and had their first concert in the hall on 30 December. Nobody could sit still with the catchy Latin American tunes. Good patronage of the hall is good because we have a number of projects in the pipeline such as getting the kitchen annex fixed and planning for painting the exterior. We have also been in touch with the Local Board planning a discussion for

March about how the community and the Board can improve communication channels, but more on this once we have dates confirmed. We wish you a fabulous February.
