

## **Onetangi Community Hall COVID Protection Framework Guidelines**

The Onetangi Community Hall will reopen when Auckland moves to the COVID Protection Framework.

To protect all who attend any event at the hall and to comply with all applicable government regulations, the following guidelines will be in effect for any individual or group using the Onetangi Community Hall:

- All attendees, age 12 and over, at any event using the hall (including the outside area) will need to provide proof of double vaccination or an official Ministry of Health approved exemption. This proof of vaccination or exemption must be provided only by the use of the official New Zealand My Vaccine Pass.
- Event organisers must check the vaccination status of all attendees before they enter the hall by visually checking the approved My Vaccine Pass either on paper or in electronic form. The use of the NZ Pass Verifier (supplied by the Ministry of Health-iOS and Android) is suggested.
- For those individuals that you are not personally familiar with, you will also need to check a photo ID to verify the identity of the individual presenting the My Vaccine Pass.
- All attendees must scan in using the NZ Covid Tracer App or by providing their details on the Contact Tracing Register (copies will be made available to you). The event organiser should maintain a copy of the Contact Tracing Register.
- Request that all attendees use hand sanitiser upon entry (provided for you) and wear a face mask when practical.
- Where possible, keep all windows and doors open (including those on to the back deck area).
- Any non-compliance with these guidelines will result in the forfeiture of your bond.
- By renting the hall you are taking full responsibility for ensuring that all users comply with these and other applicable health guidelines. The Onetangi Residents Association does not accept any liability.
